Our Introductions

MONARCH OF THE EAST, Dec. to I.D.

Too well and favorably known to require extended description. Will say, in **all round** excellence it has **no superior** and we grow most of the good new ones each year. It combines gigantic size (Grows naturally 10 to 12 inches and up to 14 inches with no forcing, feeding or even disbudding. Numerous reports of **15 inch** blooms from customers in 1939.) **Beautiful color** (warm gold, with tints of apricot and orange, with slight coppery red reverse.) **Grand stems** 3 feet or more and stiff as canes, **prolific bloomer** from mid July until frost, **sure** producer of **giant clumps** which always keep over, and such **magnificent vitality**, no weather or insect pests will ever stop it and a dahlia any amateur can grow with perfect success. The nearest to a 100% dahlia we have ever grown. Honor Roll, and many Firsts in 1939 (one customer won Firsts at three different Shows) **Now** at a price that no one can afford to miss. **Strong Divs. \$1.50 ea., 3 for \$3.50 Plants \$1.00 ea., 3 for \$2.50**
